

IDX-EZ

A FREE benefit brought to you by CCAR

IDX (Internet Data eXchange) is the method by which MLS participants and subscribers can host an MLS property search of active listings on their agent or company websites. CCAR members, participants and subscribers now have a FREE option for displaying an IDX MLS search. IDX-EZ provides the same basic MLS search as available through most vendors – but this version is FREE. The header can be customized to include agent image, brokerage image, email address, web address and more! A “no-header” option is also available.

To sign up for this FREE benefit or for additional information contact IDX@ccartoday.com or call Technical Support at 925.295.1270
